Q6：外籍學生居留健康檢查若有不合格項目，應該如何處理？

What happens if the foreign student fails a medical examination requirement?

A：

- (1) 學生如在母國尚未取得居留簽證時，請在當地先完成疾病治療（肺結核、梅毒及漢生病等），或接種麻疹及德國麻疹疫苗，取得「合格」之健康檢查證明後再申辦簽證入國。

Students must “pass” their health examinations before applying for resident visa to enter Taiwan. Students should make sure they have completed treatment for tuberculosis, syphilis and Hansen's disease if they have been diagnosed any of these diseases. In addition, students should provide proof of positive measles and rubella antibodies, or shown to have been vaccinated against measles and rubella.

- (2) 學生如先以停留方式進入臺灣，於國內健檢時發現：

In the event where students who have entered Taiwan via visitor visa and are then found the following during the required medical examination in Taiwan:

- a. 胸部 X 光肺結核檢查」或「漢生病檢查」不合格者得留臺治療後重新辦理健康檢查，但時間依其停留簽證或入出境許可證之效期為限。

Those who have failed the “chest X-ray examination for tuberculosis” or “examination for Hansen's disease” shall complete the treatment in Taiwan and then undergo the required medical examination again. However, the duration will be limited to the valid periods granted by either the visitor visa or entry permit.

- b. 「腸內寄生蟲糞便檢查」或「梅毒血清檢查」不合格者得接受治療，並於取得指定醫院核發之腸內寄生蟲複檢陰性證明或梅毒治療證明後，併同原健康檢查報告送交主管機關申請居留。

Those who have failed the “stool examination for intestinal parasites” or “serological examination for syphilis” shall complete the treatment in Taiwan; students shall then obtain proof of negative results for re-examination of intestinal parasites or proof of syphilis treatment, and submit them together with the original medical examination report to the competent authority for application of residence visa.

Q7：外交部駐外館（處）等機關核發外籍學生居留簽證時，如何認定健檢報告是否為合格？

When issuing resident visas to foreign students, how do the Ministry of Foreign Affairs' embassies and missions abroad verify the validity of the medical examination report?

A：

- (1) 外籍學生居留簽證健檢，需依據衛生福利部公告「居留或定居健康檢查項目表」所列項目辦理（腸道寄生蟲糞便檢查及漢生病檢查另有免驗部分免驗規定所有應健檢項目均為合格，該份健檢報告才能認定為合格。

For resident visa application, the applicant must complete the medical examination requirements listed on the Ministry of Health and Welfare's "Health Certificate for Residence Application" (applicants meeting certain criteria are exempt from the stool examination for parasites and examination for Hansen's disease); applicants must meet all the medical examination requirements to be considered "qualified" for the resident visa application.

- (2) 若有應檢驗項目未檢（或所附預防接種報告無法辨識）、健檢報告未經醫師蓋章或簽名、無檢查日期或健檢醫院非衛生福利部或外交部駐外館（處）所認可者，視為不合格。

The following situations will deem the applicant as "unqualified" for the resident visa application: Requisite items that were not tested (or the attached inoculation report was illegible); health certificate was not signed or sealed by the responsible physician; the dates of examination were not included; the medical institution conducting the medical examination was not approved by the Ministry of Health and Welfare or the Ministry of Foreign Affairs' embassies and missions abroad.

- (3) 外籍學生居留簽證健檢之胸部 X 光肺結核檢查如經診斷為肺結核或結核性肋膜炎視為不合格；如胸部 X 光顯示為纖維鈣化，或系列胸部 X 光病灶呈現穩定無變化且痰液未檢出結核菌，或診斷為纖維化（鈣化）病灶或肋膜增厚者為合格。

A foreign student will be deemed unqualified if they are diagnosed with pulmonary tuberculosis or tuberculous pleurisy based on the assessment of their chest X-ray for tuberculosis of the required medical examination for their resident visa application. However, the foreign student will be deemed qualified if their chest X-ray shows fibrotic (calcified) lesions, if the lesions shown on a series of chest X-rays appear stable and unchanged with no Mycobacterium tuberculosis detected in sputum, or if they are diagnosed with fibrotic (calcified) lesions or pleural thickening.

- (4) 依據我國梅毒通報定義及外籍人士辦理居留或定居健康檢查項目表之附錄五「健康檢查不合格之認定及處理流程」，出現梅毒臨床症狀且未曾接受梅毒治療或病史不清楚者，其血清非特異性梅毒螺旋體試驗及特異性梅毒螺旋體試驗結果均為陽性，視為確定病例（即健檢不合格）；故辦理居留健檢之梅毒血清檢查，其中血清非特異性梅毒螺旋體試驗（如 RPR/VDRL）結果為陰性，或血清特異性梅毒螺旋體試驗（如 TPPA/TPHA）結果為陰性非屬梅毒確診病例之條件，健檢結果視為合格。

According to the definition of syphilis notification in Taiwan and Appendix 5: Principles in Determining the Health Examination Failed and Further Procedures of Health Certificate for Residence Application, an individual is considered a confirmed case (unqualified medical examination) if the individual experiences clinical symptoms of syphilis, has not received syphilis treatment or has an unclear medical history, and tests positive on both the non-treponemal (such as RPR/VDRL) and treponemal (such as TPPA/TPHA) serologic tests. Therefore, if an individual tests negative on either the non-treponemal test (such as RPR/VDRL) or the treponemal test (such as TPPA/TPHA) in the syphilis serologic tests of the required medical examination, the individual does not meet the criteria for a confirmed syphilis case, and their medical examination will be considered qualified.

Q8：健康檢查之梅毒血清檢查可使用哪些檢驗方法？

A：

(1) 健康檢查之梅毒血清檢查檢驗方法包括：

The accepted serological testing methods for syphilis in medical examinations include:

- ⑤ 梅毒螺旋體酵素免疫分析法 (EIA)
- ⑥ 梅毒螺旋體化學冷光免疫分析法 (CIA/CLIA/CMIA)
- ⑦ 梅毒螺旋體電化學發光免疫分析法 (ECLIA)

(2) 如採用前述檢驗方法，未列於「居留或定居健康檢查項目表」之實驗室檢查「C. 梅毒血清檢查」項下，請勾選「c. other」選項並於空格填寫檢驗方法名稱及檢驗結果。另，若採用特異性梅毒螺旋體試驗③至⑦之檢驗方法，則免填列效價。

If any of the above testing methods are used and are not listed under "C. Syphilis Serological Test" in the "Health Certificate for Residence Application", please select the "c. other" option and specify the name of the testing method and the test results in the space provided. In addition, if treponemal tests ③ – ⑦ are used, reporting of the titer is not required.

(3) 此外，「側流免疫分析法 (LFA)」及「自動化 RPR 試驗」非我國梅毒病例定義之檢驗條件項目，不得作為健康檢查之梅毒血清檢查的檢驗方法。

The Lateral Flow Assay (LFA) and automated RPR tests are not included among the testing criteria in Taiwan's case definition for syphilis and therefore shall not be used as serological testing methods for syphilis in medical examinations.

Information for Overseas Students, Workforce Development Agency, MOL

Ministry of Labor - September 2025

Newly Amended Regulations and Related Information Overseas Chinese and Foreign Students Need to Understand

1. On June 14, 2024, the Ministry of Labor amended the “Qualifications and Criteria Standards for Foreigners Undertaking the Jobs Specified Under Subparagraph 1 to 6 of Paragraph 1 of Article 46 of the Employment Service Act,” to further expand the retention of overseas Chinese and foreign students engaged in specialized and technical work. As a result, individuals with more than 1 year of internship in Taiwan during their studies were included in the points-based evaluation system. At the same time, the total score threshold was also increased to 200 points. In August 2024, the standards were again amended to remove the quota limit for overseas Chinese and foreign students under the points-based system. Any eligible employer can now hire overseas Chinese and foreign students without any quota restrictions.
2. On June 14, 2024, in concert with proposals from the Ministry of Health and Welfare, the Financial Supervisory Commission and the Ministry of Economic Affairs, the Ministry of Labor further amended the “Qualifications and Criteria Standards for Foreigners Undertaking the Jobs Specified Under Subparagraph 1 to 6 of Paragraph 1 of Article 46 of the Employment Service Act,” to proactively recruit foreign professionals (including overseas Chinese and foreign students). These amendments allow foreign nationals with a Social Worker Certificate to be employed as social workers in Taiwan, expand the eligibility of foreign nationals to engage in fiscal and financial services related work, while also relaxing conditions for such individuals to apply for employment in the manufacturing sector. In addition, on January 24, 2025, it was announced that bartending would be classified as a specialized or technical profession. To be eligible foreign nationals must have 2 years or more experience bartending in a bar or restaurant, have an award from an international individual bartending competition, or have worked as a bartender or bar supervisor for at least 1 year in a bar or restaurant that has won an international award. Eligible hotels, restaurants, or bars can apply to hire such individuals.
3. On August 26, 2024, the Ministry of Labor amended the “Qualifications and Criteria Standards for Foreigners Undertaking the Jobs Specified Under Subparagraph 1 to 6 of Paragraph 1 of Article 46 of the Employment Service Act,” to allow overseas Chinese and international students with an associate degree or higher qualification to be hired to engage in hospitality services related work. On the same day, the Ministry also amended the “Regulations on the Permission and Administration of the Employment of Foreign Workers,” extending the validity of part-time work permits for overseas Chinese and foreign students to 1 year.

4. Based on the regulations detailing the extension of part-time work for overseas Chinese and foreign students in the “Review Guidelines for Work Permit Applications by Foreign, Overseas Chinese and Ethnic Chinese Students,” the method of review during the permitted work period includes the following:
 - (1) The work permits of foreign, overseas Chinese and ethnic Chinese students who apply for a work permit from October 1 of the current academic year to September 30 of the next year will be valid until September 30 of the next year. However, if a photocopy of the student ID card stamped by the registration office for the first semester of the following academic year, or a registration certificate is provided, the aforementioned September 30 limit is waived.
 - (2) If the work permit period applied for is shorter than the full academic year, the work permit will be approved according to the applied for duration.
 - (3) Foreign students enrolled in language programs in Taiwan will be granted a work permit based on the “registration period” listed on the school registration certificate, for a maximum of 1 year.
 - (4) The work permit of a foreign, overseas Chinese and ethnic Chinese student becomes invalid if the student suspends studies, drops out, graduates, or completes a short-term language or technical training program. However, this does not apply if the student receives notification of admission to a bachelor's, master's, or Ph.D., program after graduation and has completed enrollment.
5. For more information on foreign, overseas Chinese and ethnic Chinese students applying for work permits visit the Ministry of Labor's “Official Website for Foreign Workers in Taiwan (<https://ezworktaiwan.wda.gov.tw/Default.aspx>). If you have any questions, contact the Workforce Development Agency's service hotline at (02) 2380-1815.

Ministry of Labor October 2025

Promotional Materials on Labor Rights for Foreign and Overseas Chinese Students

1. The Ministry previously explained in Interpretive Letter No. Lao-Tung-Fa-Kuan-Tzu-1070507378, dated November 27, 2018, that an internship does not qualify as employment. If a foreign or overseas Chinese student “interns” at a Taiwanese company during their study period as a component of the academic program, course curriculum, or graduation requirements established by their school, and there has been no provision of actual labor or work outside of educational activities related to the curriculum, then an employment relationship has not been established. Because an internship does not fall under the category of employment, there is no need to apply to the Ministry for a work permit.
2. If an employment relationship exists between the business entity and the worker, and the industry or work is regulated by the Labor Standards Act in accordance with law or designated as applicable, then the Labor Standards Act uniformly applies, with no distinction based on Taiwanese or foreign nationality and no differentiation based on the length of the agreed-upon regular working hours. The Ministry has also formulated the Guidelines for Employment of Part-Time Workers and the Sample Labor Contract for Part-Time Workers to provide more concrete protections for part-time workers' labor rights.
3. Promotional materials on labor insurance rights for foreign and overseas Chinese students:

Tips for Foreign Nationals in Taiwan to Prevent HIV Infection

practice safe sex, get regular HIV tests, detect and treat early

A Real Case

A 50-year-old migrant worker who had been employed in Taiwan for more than 3 years sought medical attention due to discomfort and fever. His condition deteriorated and was in coma due to brain infection. He was admitted to the ICU and was tested positive for HIV infection. His family at his home country were worried about his condition but could not take care of him from afar.

Before arriving in Taiwan for work or study, you should consider getting an HIV test in your country

- It is recommended to receive an HIV test at your home country before arriving in Taiwan for work or study.
- If the test result is HIV positive, it is recommended that you stay in your home country for treatment until your condition is stabilized.

Prevention for HIV during stay in Taiwan and Recommendations for HIV Testing

Practice safe sex

Use **condoms** and **water-based lubricants** throughout sexual intercourse.

Recommendations for getting tested for HIV

- Sexually active: get tested for HIV at least once as part of routine health care
- Unprotected sexual intercourse: be tested at least once a year
- For those at higher risk or their sexual partners (e.g. STI, multiple sexual partners, drug use, and sharing needles or diluent): get tested every 3–6 months

If you have been diagnosed with HIV, get treatment!

- If diagnosed with HIV infection, working in Taiwan will remain legally allowed. Employers are not permitted to terminate employment or deport individuals based on their HIV status.
- The Taiwan government does not offer foreigners HIV treatment subsidies for the first 2 years. The treatment costs approximately NT\$200,000 (about US\$7,000) each year. However, those who have records of self-paid HIV medication in Taiwan and join Taiwan's national health insurance will be able to apply for the HIV treatment subsidies after 2 years of medication in Taiwan.
- Since August 2024, the Taiwan CDC has been launching “**the Support Program for Foreign HIV Patients Receiving Medication Within 2 Years in Taiwan**” to subsidize those who are economically disadvantaged, pregnant, or experiencing other emergencies (such as life-threatening dangers if they do not receive immediate treatment). Eligible and approved persons can obtain free HIV treatment drugs as well as HIV viral load and CD4 lymphocyte testing. (The plan is to continue until the donated medicines are used up)

Người nước ngoài tại Đài Loan phòng ngừa lây nhiễm HIV, hành vi tình dục an toàn, khuyến khích kiểm tra định kỳ, phát hiện sớm và điều trị tích cực

Phòng ngừa và xét nghiệm định kỳ HIV trong thời gian tại Đài Loan

Trường hợp nhiễm HIV thực tế

Một người lao động nước ngoài đến Đài Loan làm việc hơn 3 năm, do không khỏe và sốt cao nên đến bệnh viện. Sau đó bệnh tình chuyển nặng và rơi vào hôn mê phải vào phòng hồi sức. Qua xét nghiệm được chẩn đoán nhiễm HIV, gia đình ở quê nhà rất lo lắng nhưng không thể đến bên để chăm sóc...

Trước khi đến Đài Loan làm việc, nên xét nghiệm và điều trị HIV tại đất nước của mình

Khuyến khích người lao động nước ngoài **nên xét nghiệm HIV trước khi đến Đài Loan để hiểu rõ tình trạng sức khỏe bản thân**; nếu đã nhiễm HIV, khuyến khích ở lại quê nhà để điều trị đến khi tình trạng bệnh được kiểm soát ổn định.

Nếu chẩn đoán nhiễm HIV, hãy tích cực điều trị!

- Người nước ngoài chẩn đoán nhiễm HIV tại Đài Loan vẫn có thể tiếp tục làm việc tại đây; người sử dụng lao động không được chấm dứt hợp đồng hoặc trục xuất chỉ vì lý do nhiễm HIV.
- Chi phí điều trị HIV đối với người nước ngoài tại Đài Loan phải tự chi trả (khoảng 200.000 Đài tệ/năm). Nếu đã tham gia bảo hiểm y tế quốc gia, sau khi dùng thuốc tại Đài Loan đủ 2 năm, chi phí điều trị sẽ được chi trả theo quy định của bảo hiểm.
- Từ tháng 8 năm 2024, Cục kiểm soát dịch bệnh sẽ triển khai "**Chương trình hỗ trợ người nước ngoài nhiễm HIV điều trị trong 2 năm đầu tại Đài Loan**", hỗ trợ các đối tượng có hoàn cảnh kinh tế khó khăn, phụ nữ mang thai hoặc gặp tình huống khẩn cấp (như nếu không điều trị ngay sẽ nguy hiểm đến tính mạng...). Nếu đáp ứng điều kiện và được phê duyệt, có thể tham gia chương trình để nhận thuốc điều trị HIV miễn phí, cũng như xét nghiệm về tải lượng virus HIV và số lượng tế bào lympho CD4. (Chương trình triển khai đến khi nguồn thuốc viện trợ sử dụng hết)

Sebelum datang ke Taiwan untuk bekerja, melakukan skrining HIV dan pengobatan di negara asal

Disarankan orang asing yang akan dipekerjakan **untuk terlebih dulu menerima pemeriksaan HIV sebelum datang ke Taiwan, memahami kondisi kesehatan diri sendiri**; bila merupakan orang yang terinfeksi HIV, disarankan tinggal di negara asal menerima pengobatan hingga kondisi penyakitnya stabil.

WHEN MEDICINES BECOME NARCOTICS

The foreign workers who work in Taiwan are covered by health insurance. If a migrant feels unwell, they should go to a medical clinic to get the medicines they need. Bringing in or sending any drugs to Taiwan that contain any narcotic material will violate relevant laws and regulations and incur a penalty.

* There is just a fine line between drugs and narcotics. In Taiwan, any drugs that are addictive, narcotic, mentally influencing, or deemed necessary to strengthen control are controlled drugs. The controlled drugs legally offered by the doctor with prescriptions for medical treatment are drugs, and the controlled drugs abused for any non-medical uses are narcotics.
